RECEIVER ASKED

For Inter-Southern Life Insurance Company in Suit Filed at Louisville Saturday by Mason County Stockholders.

Louisville, Ky., October 13.—A receiver for the Inter-Southern Life Insurance Company is asked in a petition filed today in the Circuit Court by S. A. Shanklin, Mrs. S. A. Shanklin, Agnes Shanklin and Mrs. V. C. Robb, who owned 1,000 shares of the capital stock of the Citizens' Life Insurance Company at the time of its merger with the Inter-Southern Life Insurance Company, for which they paid \$20 a share, or \$20,000.

They say that each of them is now the owner of 625 shares of the capital stock of the Inter-Southern, at \$1 a share par, which they got in exchange. It is claimed by the plaintiffs that the Inter-Southern stock is not of the value it was represented to them when the exchange was made; that their stock has decreased in value; that it now has no market value; that the company is in an unsound financial condition; "that it is carrying the Inter-Southern building at a value of \$1,300,000 for its reserve requirements, although the Fidelity and Columbia Trust Company has a first mortgage lien upon said building of \$350,000; that defendant has a mere equity in said building," and that this is not a lawful investment, and in order to make it lawful defendant would have to pay off the first mortgage of \$350,000.

It is alleged that the joint surplus of the two companies was \$172,338.75 December 31, 1914; \$151,000 a year later, and \$142,000 two years later, and that the surplus is decreasing at the rate of \$6,000 a month. Numerous complaints are made in the petition as to the alleged acts of certain officers of the company, but the officers named are not made defendants to the suit, which was filed by Barrett, Allen & Attkisson and Eugene R. Attkisson. It is alleged in the petition that from the beginning of the career of the defendant company, and especially since the consolidation, it has been mismanaged. The petition is long and goes into detail as to the wrongful acts alleged by the plaintiffs, who seek to sue for all stockholders and policyholders.

MORROW TO RUN FOR GOVERNOR

Louisville, October 13.—All doubt about the future political intentions of Edwin P. Morrow, of Somerset, Republican candidate for governor in 1918, have been set at rest by Mr. Morrow himself. Although he has been frequently mentioned as an aspirant for United States senator or congressman, Mr. Morrow while in Louisville stated that he had not the slightest idea of running for anything except the Republican nomination for governor again in 1919.

UPPER ARM OF COFFER DAM COMPLETED

Contractors Bates and Rogers, who are building Lock and Dam No. 33, just east of the city, finished the upper arm of the beartrap cofferdam yesterday. This cofferdam will, when completed, extend about 600 feet across the river. Owing to the fact that parts of the old cofferdams were in place, the current of the river was very swift at the site of the new coffer and much difficulty was had with the work. Several men fell from the structure during erection and one narrowly escaped being drowned.

PAN-AMERICA LINING UP

Our people have been a little disappointed by the slowing up of Argentina's drift toward war. We hoped to have had the "Yankees of South America" as acknowledged allies before this. Their anticipated action has been retarded by internal difficulties—largely disorders fomented by German agents—and by the opposition of a president who is either pro-German or faint-hearted.

But according to John Barrett, director general of the Pan-American Union, who ought to know more about the true inwardness of Latin-America than any other man in this country, there's no need to worry. He expects Argentina to line up with us before long, and with her, virtually all of her neighbors. If the war goes on for a year, says Mr. Barrett, all of the 20 republics in South and Central America will be on our side.

Six (he reminds us, have already broken relations with Germany. They are Brazil, Bolivia, Panama, Uruguay, Cuba and Costa Rica. In addition, Cantemala, Honduras, Nicaragua, Hayti and the Dominican Republic have "assumed practically the same attitude." Argentina may sever relations at any time, and if she does so, will probably carry with her Chile, Peru and Paraguay. Of the five remaining countries, Venezuela, Ecuador, Colombia, Salvador and Mexico, he says that they all lean strongly toward the United States and the Allies.

He might have added that those countries which, like Colombia, feel that they have any real grievance against this country, are actuated by their love for France and their fear of Germany.

It is easy enough to read the sentiment of these Latin republics in their press. Being really free, our neighbors have a free press. Mr. Barrett, reports that public sentiment as expressed by the newspapers is "overwhelmingly pro-American and pro-Ally, for 95 per cent of these papers are sincerely anti-German."

THE INCOME TAX MUDDLE

The new income tax law may be all right as a revenue-producer. But as a statement of what people are expected to pay the government out of their yearly incomes, the best that can be said for it is that it's as clear as mud. The more it is explained, the less the general public understands it.

The confusion arises from the fact that there are now two income tax laws in force instead of one. The new law was merely superimposed on the law enacted last year. Each in itself is confusing enough. Combined, they require the services of the traditional Philadelphia lawyer to untangle them.

The old law has its particular set of exemptions, its "normal tax" for moderate incomes and its progressive surtax rates for large incomes. The new law has three similar sets of provisions, differing at nearly every point. The two complex systems have to be combined and harmonized before any citizen finds out what he is expected to pay on his income. The difficulty may be seen from the fact that experts themselves don't agree about the working of the plan. Many current tables meant to elucidate the matter vary in their conclusions. How, then, can the non-expert be expected to figure it out?

The government will no doubt provide, sooner or later, a dependable table showing the payment required on incomes of various size, and reducing the work of figuring exemptions to as simple a plan as possible. But it will be puzzling at best. Why couldn't congress have repealed the old law, and give us one income tax system instead of two?

WE HAD POOR HEALTH

Offered Much Pain, Yet Had to Work. Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Toledo, Ohio.—"I am a widow and go out nursing, and suffered from a female trouble that caused a great deal of soreness across my back, and through my abdomen. Sometimes it would be very painful after a hard day's work. I read about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is just the remedy for female troubles."—Mrs. ELIZABETH JOHN R. F. D. No. 4, Toledo, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today is regarded as the most successful remedy for female ills. There are thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., to prove this fact.

GIVE OUR BOYS A FIGHTING CHANCE

(By William Wrigley, Jr., Chicago.)

How fortunate it would have been had we adopted universal military training five or ten years ago. It would have meant much in the present crisis — it probably would have kept us out of the war. But it's no use to cry over spilt milk. The question is, what shall we do now? Every thoughtful man must feel that a nation unable to protect itself promptly is blind to the tragic possibilities of its heedlessness. War comes unexpectedly and, as in our own case, it is sometimes forced upon an "innocent bystander." For three years we submitted to insult and injury, until forbearance ceased to be a virtue and there was nothing left for us but to assert our rights and to defend them. No country in the world hates war more than we do. Only extreme provocation would induce us to take up arms. Experience shows abundantly that a peace-loving nation is not safe because of that fact. Belgium and some of the Balkan states are evidence of it.

As the world is constituted, and has been through thousands of years of strife, there is only one safe plan, and that is to follow the advice of Washington—in time of peace, prepare for war. If we had done this a few years ago, we would have saved billions of dollars and tens of thousands of lives. It is common knowledge in military circles that trained men, by knowing how to take care of themselves in camp and in the field, reduce the mortality and casualties at least two-thirds, and what is even more vital, men of special training only can be used in modern warfare.

Nationally, we need a little foresight, a keener appreciation of the necessity for providing for future contingencies. We cut ice in the coldest sort of weather when nobody wants ice, for we know it will be demanded a few months later; so we prepare in mid-winter, for our comforts during the heated period of summer.

The plan of universal military training as outlined in the Chamber-

lain Bill would make available at all times, millions of young men who have had sufficient military training to enable them to become excellent soldiers with a few weeks of additional training. This would safeguard the nation and prepare it against any contingency that would probably arise, and if one should never arise, the training and discipline would be the very best experience that any young man could have. It would make him stronger physically, more alert mentally, quicker to see and to act. Also, it would increase his earning capacity and give him a better chance to win success in his life work. Our boys appreciate this. I think the majority of them would be glad to take the training.

War is a calamity beyond description. We are sorry that any of our young men should be compelled to engage in it, but there are some things worse than war, and one would be to have our country dominated by a foreign power—by a rule of ruthless militarism that counts war as a regular business.

Since the boys may at any time be called upon to defend our country and our flag, we owe it to them to provide them with a careful, pretraining so that they may perform this important national function both efficiently and as safely as possible. We must not be asleep at the switch. The responsibility is up to the American citizen and the voters of this country to demand the passage of the Chamberlain Bill or some similar measure by Congress at its next session. It has already been postponed too long. It's time now for action.

THAT BACKACHE SPELLS DANGER!

Action Today May Save Maysville People Future Misery.

A bad back isn't a bad thing if it serves as warning of hidden kidney disorders. Kidney diseases are frightfully common today. We over-do so much. We don't give the kidneys a chance to rest up, and while a bad back, some bladder disorder, an occasional dizzy spell or a persistent headache may be the only outward sign, the kidney trouble that is behind it all may be overlooked or neglected. Put your signs to use. Take them as warnings. Fight off kidney weakness. It takes only a slight kidney disorder to start a case of fatal Bright's disease, from which 100,000 people die in the United States every year. Prompt treatment at first—that's all that's necessary to keep kidney weakness from turning into gravel, dropsy, gout, heart trouble or Bright's. Use Doan's Kidney Pills—the oldest, the most widely used, the best-recommended kidney pill. Forty thousand Americans recommend them publicly. Here's one Maysville case:

Mrs. John Burns, W. Second St., Maysville, says: "I was subject to severe spells of backache and other kidney trouble. They would come on every three or six months and there were times when I was confined to bed and rendered helpless. The quick and decided benefit I received from Doan's Kidney Pills was wonderful. I have never had such severe attacks since." (Statement given February 13, 1914.)

NO TROUBLE SINCE

On November 15, 1916, Mrs. Burns said: "I have the same good words of praise for Doan's Kidney Pills today, as ever. I have not needed a kidney medicine since I took them." Mrs. Burns is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mrs. Burns has twice publicly recommended—the remedy backed by home testimony. That Mother

Not long ago I stood in the street as the boys of the regiment marched by to the train. Beside me stood a woman. She attracted my attention because I could see that she was eagerly watching for some one in the marching line. It was not long before I could tell that the one she was looking for was coming. In a minute a tall, well built boy just of age, I should say, approached. As he walked by us he straightened, saluted, and, with the slightest tremor in his voice, said "Goodbye, mother."

I could see that the boy was proud of his mother—proud that he was her son, and proud that he was doing his best to fulfill her ideal of what an American boy should do. By her quick breathing I could tell that the mother was doing her best to control herself. Doubtless she had lived through these minutes many times in the last few days, and she had determined that her boy—the boy that she loved infinitely more than life itself—should go away with the feeling that his mother could be true to the things she had tried to teach him.

All she said was "Goodbye, son, God keep you." It was an incident that I shall never forget. I wish that I could tell you what I saw in her face. Her boy was going—going, perhaps, never to return. All the dreams that she had of her boy's future, all the plans that she had made for him, and all that they had made together, were things of the past.

She was making the supreme sacrifice. She was giving her boy—the boy that she had nursed, cuddled, watched and prayed over—to her country, to your country, to my country. She was giving of her life that freedom may be preserved for you and for me. Her face showed no sign of regret. I could see the yearning for the boy that was going, but I could also see that she was proud that she had such a son to give to her country.

I have no boy to give. I am too old to fight well, and it is only those who can fight well that are wanted. It is not in me now to equal that mother's sacrifice. It is strange that in the scheme of things the opportunities for sacrifice are so unevenly distributed. But as I walked away, I made up my mind that my duty, at least, would be to help bring the boy back to his mother. And if I ever weaken in my determination, I am sure that the inspiration of that woman's face will strengthen my resolution.
